I wish someone would have discussed this with me. The commissioners donÂ't always look at their dept email (Soboroff) since we use their private one.

I donÂ't even know if they have any info on One Drive. It just really screws every thing up.

It would have been nice for me to give them a heads up and explain everything. I am not doing it now so it can wait until later and they can use what we sent them.

I know the Commissioners will receive the regular materials from your office, but you may wish to let them know
